

Laurențiu Nichitean

<https://www.laurnichitean.com>

I am a Senior React Developer with more than 10 years of experience in software development, specialized in front-end technologies – React.js, JavaScript, TypeScript. In the last 2+ years I have also worked as a back-end developer using Java with Adobe Experience Manager and Go.

I love learning and working with new technologies and I constantly try to improve my code quality and performance.

Skills

- React.js
- JavaScript
- Webpack
- Git
- Yarn
- Typescript
- HTML5
- WebSockets
- Email templates
- AWS
- Kubernetes

- ES6+
- Photoshop

Experience

Senior IT Consultant

10 / 2019 - present

Senior Full-Stack Developer with React.js / Java / AEM

I work as a consultant/contractor/freelancer and help businesses develop their enterprise solutions.

My programming language of choice is JavaScript (front-end solutions using mainly React.js) but I have also used Java for back-end development for Adobe Experience Manager and Go for microservices development. I am constantly looking for new challenges and opportunities to expand my expertise.

IBM

04 / 2019 - 10 / 2019

Full-Stack Lead Developer with DevOps

Developed, tested and deployed new features as part of the BMW Personal Portal project. Participated in code and design reviews, leveraged modern tools and techniques to develop clean, efficient and reusable code. Coached new team members on the project.

IBM
